SUMMARY

Enthusiastic undergraduate with intermediate Python, Java, and MySQL skills seeks a challenging role as a Software Development Engineer. Passionate about technology and machine learning, with a project in machine learning and web technologies. Eager to contribute to R&D and backend teams, demonstrating proficiency in deploying web applications. Excited about the opportunity to apply skills and drive innovation in line with the company's technology-focused mission.

SKILLS

Python Programming, Java Programming, My SQL, Git & Github, HTML and CSS, DSA(Python), OOP(Java), VScode, AWS(Basic), Deployment: Proficient in deploying web applications(PythonAnywhere.com, 000webhost.com)

PROJECTS

Finding Figurative Meaning of Idioms using Machine Learning.

- Developed a mini project with my team focusing on automating the identification of figurative meanings in idiomatic expressions using machine learning.
- Utilized Python to construct the project, leveraging pre-trained machine learning models for robust performance.
- Integrated web technologies including JavaScript, HTML, and CSS to develop a user-friendly interface for seamless interaction.

EDUCATION

Bachelor of Engineering(CSE)

Saranathan College of Engineering   2020 - 2024
8.39CGPA

Senior Secondary School Examination

Sri Vignesh Vidyalaya Senior Secondary School   2019 - 2020
63.8%

Secondary School Examination

Sri Vignesh Vidyalaya Senior Secondary School   2017 - 2018
82.2%

TRAINING / COURSES

Skill Development Workshop   Basic Web Development Workshop

TCS B-Pro   ShapeAi.Pvt.Ltd.

PASSIONS

Technology   Machine Learning
